Dear Hiring Manager:

Please accept my cover letter and resume as an application for the Forensic Scientist position at your organization.

Gathering evidence from crime scenes to identify and analyze it is an exciting and rewarding career that has always fascinated me. For this reason I plan to major in physical sciences, such as Chemistry, to acquire the educational background to work in such a field.

I've enclosed my resume, which further details my education and skill set. I am confident that I can deliver real value for your organization and I look forward to the opportunity to discuss my skills and qualifications in person at your earliest convenience. Feel free to reach me by email at jaynellm@icloud.com or by phone at 209-289-8544. Thank you for your time, and I anticipate hearing from you soon.

Sincerely,

Jaynell Mora
